Breast and Cervical Cancer Program participants share a capitation rate with the remainder of the Low Income Adult population, and comprise less than 1% of that total population. As such, a forecast for BCCP program eligibles was not performed.

The final adjustment factor is derived by adding 1 to each individual adjustment, multiplying the result, and subtracting 1 from the product.

The number presented here reflects the final outcome of payment of partial capitations and the estimated and may change in future requests.
